

Streamlit Tutorial

1. What is Streamlit?

Streamlit is a Python library that lets you build web apps for data science and machine learning projects with minimal code.

2. Installation

Install Streamlit using pip:

```
pip install streamlit
```

3. Create Your First App

Step 1: Create a Python file

Create a new file called `app.py`.

Step 2: Save it.

4. Run the App

From your terminal or command prompt go to the directory where you saved the script.

```
cd your_path
```

```
streamlit run app.py
```

The app will open in your browser, usually at `http://localhost:8501`.
